

PDI Headend Electronics

PDI-HEF-1* **RACK MOUNTED COOLING FAN**

The **PDI-HEF-1** is a 19" rack mounted crossflow blower to be used with our 6 in 1, 12 in 1 or any other rack mounted modulator systems in non-air conditioned environments. It utilizes a 10-3/4" aluminum impeller to move air in a 90 degree direction, from the bottom to the top of the modulator system. It is extremely effective.

FEATURES

- Long narrow air flow path for efficient cooling
- Brushless ball bearing motor for long life
- Quiet operation
- Locked rotor protection
- Low power consumption
- Compact, only 1U high

SPECIFICATIONS

Power Requirements	115Vac, 50/60Hz, 14W
Air Movement	48 CFM
Continuous Operating Life	40,000 hours
Maximum Operating Temperature	140 degrees F
Dimensions	19" x 1 3/4" x 6 1/4"
Weight	4 lb. net

* Patent pending
